RE: CG Docket No. 03-123
Federal Communications Commission (FCC)
445 Twelfth Street SW
Washington, DC 20554

Dear Chairman Martin, Commissioners Adelstein, Copps,
McDowell, and Tate:

I know we all have busy schedules, so I want to thank you
up front for taking the time to read and address this concern.

I am a hearing person with family and friends that are deaf
and use VRS to communicate with their family, friends,
business, physicians, hospitals, etc.

Many of the deaf community are on fixed incomes, house
bound and to those that use VRS communication to do their
jobs, this would not only infringe on their rights, "RE:
Americans with Disabilities Act (ADA)", but it would pose
financial burdens as well. This has opened up a whole new way
of life for the deaf person in our hearing world.

This would not only be an infringement on (ADA), but a
huge step backwards for all of us if you follow through with
cutbacks.

The cost of communications that all of us are paying
today, "deaf or hearing", should more than cover the VRS
communication program, there's no need to cut back services
or raise prices.

Sincerely,

Deborah Vanderveer

RE: CG Docket No. 03-123; TRS Fund—Drastic VRS Rate Cuts

Dear Chairman Martin,
Commissioners Adelstein, Copps, McDowell, and Tate:

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is proposing a drastic cut to the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS
- Improve service and technology so the mandate of the Americans with Disabilities Act (ADA) for functionally equivalent telecommunications services is met

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the ADA to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

Signature
